

Marion High School

Our school is helping all students develop the World Class Skills of the Profile of the South Carolina Graduate by providing a structured, safe, and nurturing environment where students can excel in academics, athletics, and the arts. We offer numerous curricular and extracurricular activities to meet the needs of our diverse student population where they can develop the skills of creativity, communication, collaboration, teamwork and innovation. Students may participate in Fellowship of Christian Athletes, Beta Club, Science Club, Student Council, Boys to Gentlemen Club, and Backpack Buddies. Students also have the opportunity to participate in the Fine Arts program including art, "Run DMC" Drama, and the marching band.

With a focus on academics, students have an opportunity to take College Preparatory, Honors, Advanced Placement Art and Dual Enrollment courses to further develop critical thinking and problem-solving skills. Additionally, students may take courses of study at the Academy for Careers and Technology (ACT), the Lake City Continuum, or apply for the Early College Program. Marion High School is committed to preparing students to graduate with the education and skills necessary to become productive members of an ever-changing society and who are College or Career Ready. This year, the Gradual Release Model, Professional Learning Communities (PLCs), Learning Interventionists in the areas of Math and English, and professional development mini-sessions were incorporated to enhance instructional outcomes of our school.

Some of our most notable accomplishments this year include the "If I can, you can too" speaker series and band students being a part of the community-wide Art in the Park event. Many other students participated in the Jobs for America's Graduates program where students are actively engaged in leadership and training activities. They participated in the JAG-SC Leadership Development Conference where several students were recognized. Members of the National Beta Club are actively involved in service opportunities where the group organized a Red Cross Blood drive, participated in the Myrtle Beach State Park Beach Sweep, and attended the SC Beta Convention.

Despite our many accomplishments, we recognize our challenges and are committed to continuous growth and improvement.
