Important Definitions

Quarantine: Individuals in quarantine should stay home and avoid contact with other people until the quarantine period is over. This includes members of the household.

Isolation: Someone infected with COVID 19 with or without symptoms, separates from people who are not infected. They must remain at home and avoid contact with other people until their isolation period is over, including members of their household

Close contact: DHEC defines close contacts among students in the school setting as unvaccinated students who were within 3 feet of an infected person for a cumulative total of 15 minutes or more over a 24 hour period.

The parent/guardian of any student who has been in close contact with an infected individual will be notified by the school nurse that their student is subject to state-mandated quarantine procedures as outlined above.
